GE MOBILE PROPOSAL

GE 23X 8CH CXK4 1.5T Mobile MRI

Submitted by:

SIGNATURE MRI SALES & SERVICE

03/19/2026

Technological Summary

- GE Signa Excite HDxt 1.5T MRI
- The GE Signa HDxt 1.5T MRI system is a highly reliable and industry-proven 8 or 16-channel system designed to provide clinicians with exceptional accuracy, productivity, and reliability for definitive diagnoses. This full-featured MRI system is designed to deliver definitive diagnoses, even in the most challenging exam situations.
- It features a homogenous 1.5T magnet with a full 48 cm field of view, ensuring the highest homogeneity and stability. This system includes advanced technology such as 8 to 16-channel RF, HD coils, data acceleration, and specialized applications for various anatomical areas. The HFD Gradients produce precise waveforms, and virtual reconstruction allows for real-time, high-performance image generation.

Technological Summary Cont.

- With a 8-channel configuration, users can instantly access GE's leading-edge capabilities. This includes GE's compact high homogeneity 1.5T magnet, powerful high-fidelity gradients, high-performance computing platform, and exclusive HDxt technology.
- Overall, the GE Signa HDxt 1.5T MRI system represents a significant advancement in 1.5T imaging, meeting the demands of modern clinical imaging with its advanced technologies and capabilities.

Mobile MRI Summary

SYSTEM SPECS:

- **System ID:** [TBD]
- **Magnet Strength:** 1.5 Tesla
- **Receiver Channels:** 8
- **Scan FOV:** 48 cm
- **Magnet Type:** LCC--CXK4 1.5T (Round Covers Blue HD Type)
- **Gradient Slew Rate:** 8916 (HFD) Amps--33mt/120
- **Host Computer:** HPZ400
- **Display Type:** NEC2490WUXi [nVidia_Quadro_FX_1500]
- **Software:** 23X [HD 23.0.V02 SW Level] [HD23.0_1406a]
- **Bore Width:** 60cm
- **Table Weight Limit:** 500lbs (Lightweight, Light Gray Trim)
- **RF & Systems Cabinet:** RFS Cabinet Assembly
- **Gradient Cabinet:** HFD Gradient / PDU Cabinet
- **Body Coil Cooling:** Ellis & Watts Gradient Chiller
- **Monitor Type:** Magnet Monitor III
- **Summary:** Overall, the GE Signa HDxt 1.5T MRI system represents a significant advancement in 1.5T imaging, meeting the demands of modern clinical imaging with its advanced technologies and capabilities.

Mobile MRI Summary

Coils Include:

- *TR HEAD
- *8-Channel Head
- *8-Channel CTL Spine
- *8-Channel Body Array
- *8CH TR Knee
- *Neurovascular Arry Coil
- *Cardiac Array
- *Hi Res Wrist
- *8CH Foot / Ankle
- *Shoulder Array
- *8-Channel HD USAI CTL
- *Invivo HD Knee / Foot Cage
- *3" / 5" Round

TRAILER DETAILS:

- **2000 AK Specialties Trailer 48' x 102"**
- Located on the Eastcoast
- Available March15th, 2026

Equipment Summary

This system was upgraded back in 2014. This is being offered as a comprehensive addition or replacement solution for potential new clinical locations or obsolete 8X thru 12X GE MRI systems. This Mobile has the advantage of being newer hardware configuration, and available for delivery at the end of the year.

Outright Purchase Price: $275,500.00 As Is, Where Is
(Transport, Tax, Title, are Customer Responsibility.)
