Technological Summary I

The GE Optima 750 3.0T MRI scanner is a state-of-the-art imaging system that offers advanced features, making it a compelling investment for healthcare organizations prioritizing superior patient care.

Key Features

This sophisticated scanner features high-definition gradients, a powerful RF chain, and a robust digital platform that enable faster and more precise diagnoses. In addition, the scanner's motion correction and MRI noise reduction capabilities augment patient comfort and minimize the need for repeat scans. Compared to its predecessors, this scanner boasts a wider bore, a quieter scanning environment, and a more intuitive user interface that improves workflow efficiency for healthcare providers.

Technological Summary II

Compared to Other GE MRI Scanner Models The GE Optima 750 3.0T MRI scanner is an ideal investment for healthcare organizations striving to deliver the highest standards of imaging quality, patient comfort, and workflow efficiency.

Mobile MRI Summary

SYSTEM SPECS:

- **Attached are pictures and specifications for the following 2012 GE OPTIMA MR750 3.0T MRI thats located in Denmark.**

- **2012 GE OPTIMA MR750 3T MRI**
- **- Year Of Manufacture: 2012**
- **- Number of Channels: 32**
- **-Magnet Type: LCC-750 [5324355ADW]**
- **- Field Strength: 3T**
- **- Magnet Serial: UA0095**
- **- Bore Size: 60 cm**
- **- Gradient Strength: 50/200**
- **- Gradient Package Name: XGD - 8920 SR200**
- **- Upgraded - No**
- **- Helium Levels: 79.53%**
- **- Magnet Pressure: 3.07 PSI**
- **- Shield Temp: 41.59K**
- **- Shieldcooler type: F-50H [p/n: 5197842] [Ser:SA212417C]**

GE OPTIMA MRI Summary

COILS:

- **Coil Package:**
- **- GEM Posterior Array (within table**
- **- GEM HNU Posterior**
- **- GEM HNU Anterior**
- **- GEM HNU Adaptor Block Bridge**
- **- GEM Anterior Array**
- **- HD 8Ch Vibrant Breast Array**
- **- GEM Small Flex Array 16ch**
- **- GEM Medium Flex Array 16Ch**
- **- GEM Large Flex Array 16Ch**
- **- GEM PVA**
- **- Split Head Coil**

- **Addtional Pictures and Videos Available Upon Request. All phantoms are present and accounted for.**
- **Location: Denmark**
- **Available: March 2026**

Equipment Summary

***Outright Purchase Price: $696,200.00 Turnkey Installed**

(Rigging into Customer Suite capped at $7500. Tax, Title, are Customer Responsibility. Any Interim Cold Storage will be a Customer Responsibility. Site Readiness to receive system & any expenses due to site prep are a customer responsibility)

*Listed Pricing is valid only with Full Service, or Labor Only & PM's Service contract.
**1-Year Warranty available upon request for an additional $90k.
